Roman Electric

WEBSITE	https://romanelectric.com/
ENGAGEMENT	Dec 2025 – Apr 2026 4-month intensive
ROLE	Senior SEO Strategist / Strategy Lead

Project Overview

Roman Electric was an established service business with room to expand its non-brand search footprint. The SEO strategy focused on technical refinement, stronger service-page architecture and broader topical coverage. During the comparison period, total impressions increased from 83.3K to 171K (+105.3%), while clicks grew from 1.69K to 1.86K (+10%).

Strategy / Scope

- **Content Silo Implementation:** Reorganized the service architecture into clear Electrical, Plumbing and HVAC silos to improve topical relevance and make service themes easier for search engines to interpret.
- **Technical Performance Overhaul:** Addressed Core Web Vitals and mobile-usability issues across priority service pages to support technical quality and a smoother experience for high-intent visitors.
- **Advanced On-Page & Local SEO:** Implemented local-business schema, refined page targeting and aligned service content with location-driven and “near me” search intent.
- **Search-Footprint Expansion:** Expanded visibility beyond existing branded demand into a broader set of service and discovery queries.

Performance Metrics

Metric	Previous	Current	Change
Total Clicks	1.69K	1.86K	+10%
Total Impressions	83.3K	171K	+105.3%
Average Position	15.8	20.4	-4.6 pos.
Average CTR	2.0%	1.1%	-0.9 pp

Performance Interpretation

WHAT THE DATA SHOWS

The strongest signal was reach: impressions more than doubled while total clicks still increased. The softer blended position and CTR are best read in the context of a much wider query footprint, where many newly visible searches initially appeared deeper in the SERPs.

Milwaukee Signarama

WEBSITE	https://milwaukee-signs.com/
ENGAGEMENT	Dec 2025 – Apr 2026 4-month intensive
ROLE	Senior SEO Strategist / Strategy Lead

Project Overview

The objective was to expand organic reach beyond core branded demand in a competitive local signage market. Through localized content expansion, stronger internal linking and more commercially aligned on-page SEO, impressions grew from 62.3K to 122K (+95.8%) and clicks increased from 223 to 410 (+83.8%).

Strategy / Scope

- **Localized Content Expansion:** Developed geo-targeted and service-specific content to capture broader local demand beyond core brand searches.
- **Technical Authority & Internal Linking:** Streamlined internal linking so relevance and link equity flowed more deliberately toward important service pages.
- **On-Page SEO:** Reworked metadata and page-level optimization around local user intent and commercially relevant signage queries.
- **Search-Footprint Expansion:** Increased visibility across a broader set of industry and discovery searches.

Performance Metrics

Metric	Previous	Current	Change
Total Clicks	223	410	+83.8%
Total Impressions	62.3K	122K	+95.8%
Average Position	29.2	30.2	-1.0 pos.
Average CTR	0.4%	0.3%	-0.1 pp

Performance Interpretation

WHAT THE DATA SHOWS

Impressions nearly doubled while clicks increased by more than 83%. The small shift in blended average position is consistent with a site entering additional queries at deeper positions before those rankings mature.

GSC Stats

FEATURED CASE STUDY • 03

P2EzPay

WEBSITE	https://p2ezpay.com
ENGAGEMENT	Dec 2025 – Apr 2026 4-month intensive
ROLE	Senior SEO Strategist / Strategy Lead

Project Overview

P2EzPay entered the engagement with limited organic traction in the competitive payment-solutions space. The work prioritized technical cleanup, clearer intent targeting and content clusters around payment security and global transactions. During the comparison period, impressions increased from 1.09K to 11.5K (+954% as reported in the project data), clicks grew from 11 to 99 (+800%), and average position improved from 41.6 to 29.5.

Strategy / Scope

- **Technical SEO Recovery:** Audited crawl efficiency, schema-markup errors and foundational issues that could limit search-engine understanding of the site.
- **Intent-Led On-Page Optimization:** Reworked core landing pages, H1-H3 structures and metadata around commercially relevant, high-intent search themes.
- **Content Authority Development:** Built a cluster-led content framework around Payment Security, Global Transactions and related supporting topics.
- **Growth Outcome:** Expanded the searchable footprint while clicks, impressions and average position improved together.

Performance Metrics

Metric	Previous	Current	Change
Total Clicks	11	99	+800%
Total Impressions	1.09K	11.5K	+954%
Average Position	41.6	29.5	+12.1 pos.

Performance Interpretation

WHAT THE DATA SHOWS
Because the project started from a small base, percentage growth should be read alongside absolute numbers. Even with that context, clicks, impressions and average position all moved in the right direction during the same 120-day period.

GSC Stats

GROWTH CASE STUDY • 04

Two Guys Home Furnishing Dubai

WEBSITE	https://www.twoguys.ae/
ENGAGEMENT	Jun 2024 – Apr 2025

Project Overview

During the tracked Search Console comparison, total organic clicks increased from 993 to 1.91K (+92.3%), while impressions expanded from 76.9K to 218K (+183.5%). Average position improved slightly from 45 to 44. CTR declined from 1.3% to 0.9% as the site appeared across a much larger set of searches.

Performance Analysis

- **Search Visibility:** Impressions increased from 76.9K to 218K, meaning the website appeared substantially more often across Google Search.

- **Traffic Acquisition:** Organic clicks increased from 993 to 1.91K, showing that the additional visibility translated into considerably more visits from search.
- **Efficiency in Context:** CTR moved from 1.3% to 0.9%, yet total clicks still grew by approximately 92.3%. Average position also improved slightly from 45 to 44.

Performance Snapshot

+92.3% ORGANIC CLICKS	+183.5% IMPRESSIONS	44 AVG. POSITION	0.9% CURRENT CTR
---	---	--	--

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	sintered stone flooring	1
2	linen curtains dubai	9
3	shutters in Dubai	15
4	LVT flooring UAE	28
5	blackout curtains dubai	29
6	blinds in dubai	33

Performance Interpretation

WHAT THE DATA SHOWS

The core outcome was a substantially larger search footprint that also generated more traffic. Ranking positions below are historical captures from the project period and may vary by date, location and device.

GSC Stats

MIGRATION CASE STUDY • 05

Blinds and Curtains Dubai

WEBSITE	https://blindsandcurtains.ae/
ENGAGEMENT	Jun 2024 – Apr 2025
MILESTONE	WordPress → custom platform migration in Jan 2025

Project Overview

The project included a January 2025 migration from WordPress to a custom-built platform. SEO priorities centered on redirect mapping, URL preservation, crawlability, high-intent category structure and post-launch monitoring. Across Jun 2024–Apr 2025, the site recorded 11.7K clicks and 1.09M impressions with an average position of 22.8 and a 1.1% CTR.

Strategy / Scope

- **Platform Migration Management:** Managed the SEO transition with detailed 301 redirect mapping and URL-continuity planning to protect existing search equity.
- **Post-Launch Recovery & Stability:** Monitored crawlability, indexation and ranking behaviour so migration-related issues could be identified and corrected quickly.
- **Structural Content Integrity:** Reorganized the product and service hierarchy while protecting high-intent categories with existing search value.
- **Core Web Vitals & UX Focus:** Prioritized speed and user experience, including performance considerations around image-heavy product galleries.

Performance Metrics

Metric	Performance
Total Clicks	11.7K
Total Impressions	1.09M
Average Position	22.8
Average CTR	1.1%

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	dubai curtains and blinds	2
2	motorised curtains	2
3	dubai blinds	2
4	conservatory blinds	2
5	full height shutters	3
6	outdoor blinds dubai	4

Performance Interpretation

WHAT THE DATA SHOWS

The GSC SS shows that substantial organic visibility was retained through a major platform change. Query-level rankings provide the strongest context for the 22.8 site-wide average position.

GSC Stats

PROJECT HIGHLIGHT • 06

Rosa Clothing & Apparel Store

WEBSITE	https://rosastores.com/
ENGAGEMENT	Mar 2025 – Aug 2025
PROJECT CONTEXT	Website revamp with new design and content strategy

Project Overview

This project page focuses on the recorded ranking outcomes from the engagement period. The website was revamped with a new design and content strategy, and the ranking snapshot below captures the search visibility achieved during that period.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	Rosa boutique	1
2	Rosa clothing	1
3	Rosa stores	1
4	Rosa collection	2

Performance Interpretation

WHAT THE DATA SHOWS

Recorded results show strong branded visibility, including multiple #1 positions and a #2 position for “Rosa collection.” Add the corresponding GSC or SERP capture below to support the historical snapshot.

GSC Stats

PROJECT HIGHLIGHT • 07

Pinky Furniture UAE

WEBSITE	https://pinkyfurnitureuae.com/
ENGAGEMENT	Mar 2025 – Jul 2025

Project Overview

This page presents the recorded ranking outcomes from the engagement period, with emphasis on non-brand commercial furniture queries relevant to Dubai and Sharjah.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	solid wood furniture dubai	1
2	dining table dubai	1
3	rattan furniture dubai	5
4	Furniture store in Sharjah	5
5	solid wood dining table	4

Performance Interpretation

WHAT THE DATA SHOWS
The recorded snapshot included two #1 rankings and additional top-five positions for commercially relevant furniture queries. This is stronger GSC SS than branded-only visibility because the queries reflect product and local purchase intent.

GSC Stats

PROJECT HIGHLIGHT • 08

MR Fashions

WEBSITE	https://www.mrfashion.com.pk/
ENGAGEMENT	Mar 2025 – Jul 2025

Project Overview

This project page highlights the recorded organic rankings for fashion-accessory and handbag searches during the engagement period.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	oversized shoulder bags	1
2	MR Handbags	2
3	d shape bag	2
4	box clutch black	3
5	stylish bags 2025	4

Performance Interpretation

WHAT THE DATA SHOWS
The ranking snapshot shows visibility across both product-specific and broader fashion-accessory searches, including a #1 result for “oversized shoulder bags” and several additional top-four positions.

GSC Stats

BUILD + SEO CASE STUDY • 09

Khanabadosh Glamps

WEBSITE	https://khanabadosh.pk/
ENGAGEMENT	Mar 2025 – Jun 2025
SCOPE	Website Development + SEO Strategy & Implementation

Project Overview

Khanabadosh Glamps was a combined website-development and SEO engagement. I developed the website with the development team and implemented the SEO strategy, so search visibility was considered from the foundation rather than added only after launch. The strategy focused on destination-led glamping searches around Murree and Kumrat while also establishing the Khanabadosh brand in search.

Strategy / Scope

- Website Development with SEO Built In: Developed the website with SEO considerations integrated into the site structure and content from the beginning.
- Search Intent & Destination Targeting: Aligned the SEO strategy with the way travellers search for glamping and resort options in Murree and Kumrat.
- On-Page SEO & Content Alignment: Structured and optimized important page content around glamping, resort, pod and destination themes.
- Search-Focused Site Structure: Built the architecture to connect the brand, accommodation offering and destination relevance.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	glamps in murree	6
2	Kumrat glamps	6
3	khanabadosh pods	4
4	murree glamps	16

Performance Interpretation

WHAT THE DATA SHOWS
The combined build-and-SEO approach produced visibility beyond branded searches. Recorded results included #4 for “khanabadosh pods” and page-one positions for destination-led glamping terms.

GSC Stats

PROJECT HIGHLIGHT • 10

Latitude Resort

WEBSITE	https://latituderesorts.pk/
ENGAGEMENT	Dec 2024 – Jun 2025

Project Overview

This page presents the recorded organic ranking outcomes for the hospitality project, with a focus on destination and commercial resort searches around Kumrat Valley.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	Kumrat Resorts	1
2	Resorts in Kumrat Valley	1
3	Kumrat Valley Resort	1
4	Latitude Resort Prices per Night	3

Performance Interpretation

WHAT THE DATA SHOWS

The recorded snapshot included multiple #1 rankings for non-brand destination searches, including “Kumrat Resorts” and “Resorts in Kumrat Valley,” plus a #3 position for a price-intent query.

PROJECT HIGHLIGHT • 11

Interior Films Dubai

WEBSITE	https://interiorfilm.ae/
ENGAGEMENT	Jun 2024 – Apr 2025

Project Overview

This page highlights recorded rankings for commercial interior-film and vinyl-related product searches during the project period.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	Interior Vinyl Film	1
2	wood vinyl wrap	2
3	Metallic Vinyl	3
4	Marble Wrap	3
5	interior vinyl wrapping	4

Performance Interpretation

WHAT THE DATA SHOWS

The ranking snapshot demonstrates strong product and category visibility, including a #1 position for “Interior Vinyl Film” and additional top-four rankings across vinyl and wrap queries.

GSC Stats

EARLIER PROJECT • 12

Natural Motion Myopractics

WEBSITE	https://getnaturalmotion.com/
ENGAGEMENT	Feb 2024 – Jun 2024

Project Overview

This historical project snapshot focuses on recorded rankings for informational and service-related health and wellness queries during the engagement period.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	Myopractic vs chiropractic	1
2	what is myopractic therapy	1
3	what is a myopractor	3
4	what is body alignment	8

Performance Interpretation

WHAT THE DATA SHOWS

The captured results included #1 rankings for two informational queries and a #3 position for “what is a myopractor,” indicating visibility across educational search intent as well as the brand/service topic.

EARLIER PROJECT • 13

Formazione Online e Università Telematica

WEBSITE	https://www.fiorerosalba.com/
ENGAGEMENT	May 2023 – Jan 2024

Project Overview

This historical project snapshot presents recorded rankings from an Italian online-education website across course and vocational-training searches.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	corsi elettricista per adulti	1
2	corsi per mastri birrai	1
3	corso di tappezzeria	1
4	segreteria direzionale	1
5	corso segretaria amministrativa	3

Performance Interpretation

WHAT THE DATA SHOWS

The recorded snapshot included four #1 positions across different course categories and a #3 position for an administrative-secretary course query, demonstrating visibility across multiple education themes.

EARLIER PROJECT • 14

Rogu Group | Welding Machines & Work Boots

WEBSITE	https://gruporogu.com.mx/
ENGAGEMENT	Aug 2023 – Feb 2024

Project Overview

This historical project snapshot focuses on recorded rankings for Spanish-language industrial workwear and welding-related queries.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	botas para soldador	5
2	botas de soldador	6
3	botas soldador	5
4	botas de trabajo	29

Performance Interpretation

WHAT THE DATA SHOWS

The project snapshot captured top-six visibility for several welder-boot searches, with broader “botas de trabajo” visibility also recorded during the engagement period.

EARLIER PROJECT • 15

Paws & Relax | Online Pet Store

WEBSITE	https://www.pawsandrelax.ae/
ENGAGEMENT	Jan 2021 – Jun 2022

Project Overview

This historical e-commerce project snapshot presents recorded rankings for local pet-store searches and product/category queries.

Ranking Highlights

#	Keyword / Search Query	Captured Rank
1	pet store near me	5
2	pet shop near me	6
3	cat trees	9
4	royal canin dog food	8
5	Cat Tree Dubai	4

Performance Interpretation

WHAT THE DATA SHOWS

The captured rankings included page-one visibility for local “near me” searches and product/category terms, including #4 for “Cat Tree Dubai” and #5 for “pet store near me.”
